RETURN RECEIPT REQUESTED

MICHAEL R BROWN
CONTINENTAL LIME INC
3950 SOUTH 700 EAST SUITE 301
SALT LAKE CITY UT 84107

Dear Mr. Brown:

A careful review of the land status in your area of operations was conducted subsequent to the Agreement to Exchange Utah School Trust Lands between the State of Utah and the United States of America. This land status review, in conjunction with a review of the maps submitted with your approved Plan of Operations (Plan) (UTU-070556) and the maps submitted with the amendments to your Plan, indicates that only approximately 1.1 acres of the area disturbed or proposed to be disturbed under your Plan is on the Public Lands. This small area is in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 35, T. 21 S., R. 10 W., SLBM.

Additionally, the land status review, in conjunction with a review of the locations of the drill holes proposed for your 1997 drilling program under Notice UTU-75844, indicates that 29 of the proposed holes are no longer located on the Public Lands.

If we have received no objection from you within 30 days of the receipt of this letter, it is our intention to convert your Plan to a Notice, as the total disturbance on the Public Lands is under the five acre threshold.

If your records show more or less disturbance under your Plan or a different number of the proposed 1997 drill holes located on your fee surface, please let us know so that we can reconcile the differences.

I will be out of the office from December 16, 1999 until January 11, 2000. If you have any questions, you may contact me at 435-743-3126 after I return, Larry Garahana at 435-743-3125, or Sheri Wysong at 435-743-3124.

Sincerely,

Ron Teseneer
Geologist
